

PDG+creative is a creative solutions firm based in the mid-west serving clients around the world. Our interactive department is growing at a very fast pace and we are looking web developers to join our team. If you are looking for a fun, casual creative environment and you fit the skill set below, contact us and let us know you are ready to join our team.

Please send resume and samples of work to careers@pdgcreative.com

Requirements:

- Strong knowledge of PHP
- Strong knowledge of MySQL
- Basic knowledge of Object Oriented Programming techniques
- Working knowledge of HTML, CSS, and JavaScript
- Knowledge of a JavaScript library (preferably jQuery)
- Experience using Photoshop or equivalent
- Outstanding verbal communication skills, self motivated, attention to detail, passion for web design, desire to keep learning and a drive to produce great work
- Strong interest in web technologies, platforms, trends, and standards
- Degree preferred, but not required
- Exceptional work ethic
- Professional image
- Positive attitude
- Ability to work in a high traffic, fast-paced environment

Responsibilities:

- Work closely with design and interactive team to develop website prototypes for proof-of-concept and usability testing.
- Understand and accurately build web-based application solutions based on different types of documentation (site maps, wireframes, comps & copy documents) as well as being able to develop these documents.
- Design HTML prototypes, visual interfaces and interaction of Web-based applications and hand code CSS.
- Have familiarity with user-interface and information architecture principles and how to design Web sites with complex information or functionality.
- Be experienced in UX/UI Design, Information Architecture and Usability.
- Be detail-oriented and highly communicative, with the ability to work both independently and with a group, think critically and solve problems.

Bonus Points for Knowledge or Interest:

- Bachelor's degree in CS or equivalent experience
- XML or JSON
- Flash
- Objective C and Java

Excellent Career Opportunity for those who need a change, those just starting out, and recent College Grads. Do you have a real interest in the design side of things that complements your technical expertise? Do you have an online portfolio or set of work samples? If this sounds like you, please send along a URL with your resume.
